

18.12.2012

To Whom It May Concern,

Vesile Yilmaz who is studying through Cert3 Education Support, worked with us at Riverside Primary School, Year 1 classroom environment between 10.12.2012 and 18.12.2012. During her time at our school, she was actively involved in the classroom projects. She worked one-to-one with students for specific tasks with supporting and enhancing the literacy skills of students with additional needs. Additionally, she supported teachers with material preparation, marking, getting organized and various kinds of teaching activities. She had a very good rapport with children and colleagues and she showed a genuine interest in the well-being of the students. She is hardworking, friendly and enthusiastic about helping children. She accomplished all kinds of tasks with great initiative and with very positive attitude. We would expect her to perform well in a wide range of environments and we wish Mrs.Yilmaz all the best on whatever path she chooses.
